

# Water Spirit Flower

Suishou no Tama

Hello everyone! I'm Yukio. Today, I introduce my favorite flower. This is "Suishou no Tama". This flower is a kind of *Iris ensata*. What a beautiful white flower !

"Suishou" is Water spirit. In a word, it is a flower which was in water spirit. This name is really cool. I want you to look at the perianth. Do you see through it? The characteristic of "Suishou no Tama" is the whiteness and transparency of the perianth. Its perianth is like the flowing water.

I liked this flower very much.

Yukio Yamada
