

# Gardening is “Zazen”

Can you express the universe with just one flower ?

This iris is called “Uchu”. Beautiful flowers enrich people’s hearts, just like “Zazen”. But more than that, this iris gave us the heart that we can think it was a universe.

This iris expresses magnificent and beautiful enough to deserve the name “Uchu”.

From this iris, I can feel a secret passion like “gardening romance”. Also this iris reminds me that dream is free and give me courage.

So I may be fascinated by this Iris.
